Petitioner disclaims the terminal part of any patent granted on the Subject Application (referred to as a "Subject Patent") which would extend beyond the expiration date of the full statutory term as defined in 35 U.S.C. 154 to 156 and 173 of the Prior Patent. Petitioner hereby agrees that the Subject Patent shall be enforceable only for and during such period that the legal title to such patent and the Prior Patent are commonly owned. This agreement is to run with the Subject Patent and to be binding upon the grantee, its successors, and assigns.

In making the above disclaimer, Petitioner does not disclaim any terminal part of the Subject Patent prior to the expiration date of the full statutory term of the Prior Patent, even if the Prior Patent: (1) expires for failure to pay a maintenance fee; (2) is held unenforceable or is found invalid by a court of competent jurisdiction; (3) is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. 1.321; (4) has all claims canceled by a reexamination certificate; (5) is reissued; or (6) is otherwise terminated prior to the expiration of its full statutory term.

Documents establishing the chain of title of the Subject Application (including the aforementioned assignment and a recording location) have been reviewed and I certify that, to the best of my knowledge and belief, title is in Petitioner.

I declare that all statements made herein of my own knowledge are true and that all statements made herein on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the above-identified application or any patent issuing thereon.

Please charge the fee provided in 37 C.F.R. 1.20(d) to Deposit Account No. 13-3723.

Respectfully submitted,
